

## Minutes for Anti-Racism Committee meeting May 3, 2021

Attendance: Fredkin, Goldwater, Harpin, Moore, Panetta, Rodriguez, Snyder, Williams

1. Discussion of May 1 event “Who’s Afraid of Critical Race Theory?”. As with previous events, a lot of material and less time for discussion than some would have liked. Should future presentations be less dense with content? Should they be longer? Should we have breakout rooms again?
2. Evaluations of the event: Only those requesting CE’s filled out forms. Shall we review these? Should we request evaluations from all attendees, as we did after the last event? The same single open-ended question, or something more detailed?
3. May 22 open discussion was planned for afternoon, but it was agreed that morning would be more convenient. Who will be the moderator(s)? What role should our committee members play? A screen shot was taken of us all smiling for publicity—will this encourage otherwise terrified people to sign up?
4. Further discussion about opening our committee to new members, including students and faculty. How many more members do we want? How should we decide who we want? (Will our smiling screen shot encourage people to join us?)
5. Suggestion for self-evaluation by our committee. Dr. Panetta will send out our original mission statement as a reminder of what standard we should use for self-evaluation.
6. We want to attract more students of color to BGSP. How can we do this? What will attract them?
